

A new green outlook on our Red Shield™ Warranty.

Everyone in the commercial building industry is making an investment in “greener” systems, materials and building practices. Now, Firestone is backing your investment in the future with an investment of our own: the Firestone EnviroReady™ Roofing System and Warranty.*

This comprehensive program allows building owners to install a high quality conventional roof today and upgrade it with green roofing technology tomorrow. Firestone's Red Shield™ Warranty keeps your new EPDM or TPO roof “enviro-ready” for responsible upgrades for up to 7 years after initial installation, so you can go green in a way that matches your needs and your budget.

Thanks to the EnviroReady™ Roofing System, you can plan for future environmental roofing upgrades with more accuracy and more confidence. Our industry leading Red Shield™ Warranty makes sure you're not just installing the products you need, but you're receiving the coverage you need to maintain everything that will go under your next “green” roof. Firestone's exclusive program provides premium system offerings with 20-, 25- and 30-year warranty options to help you achieve your sustainable building goals.

* EnviroReady™ Roofing System available in select EPDM and TPO Roofing Systems. See your local Firestone sales representative for details.
